School Bus Tracker

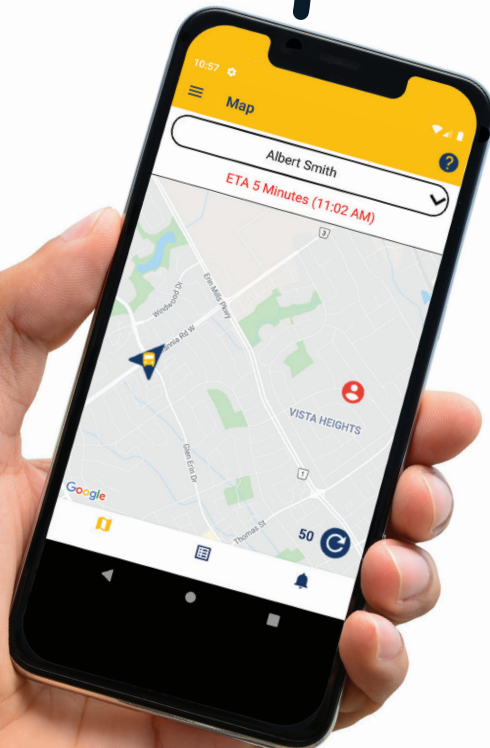

School Bus Tracker App for Parents

These days, parents expect real-time busing information. Chipmunk provides this and more.

Chipmunk enables parents to see their child's bus location — in real time — along with the estimated time of arrival for their student.

Chipmunk delivers:

- Real-time travel data using AI technology
- An ETA feature for projected arrival times
- Support for all major GPS vendors
- Bus seat assignment for contact tracing
- Alerts and two-way messaging with parents

Chipmunk. Now you know.
